POST-VISIT UNCERTAINTY

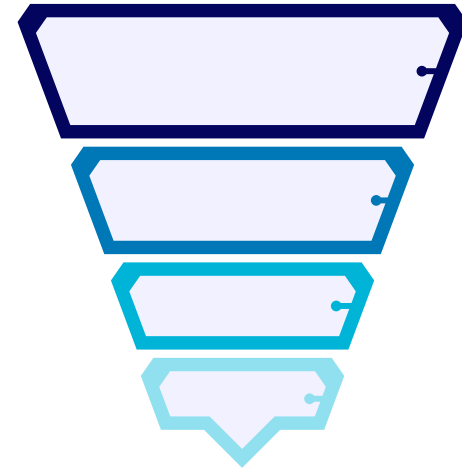

→ Follow-up email with prescription, next steps, reimbursement info

SOURCING & ACQUISITION

SOURCING & ACQUISITION

(How to Find New Customers)

Internal Sources

Inactive patient pool (12+ months)

One-time users

Search / abandoned-booking data

Referral users

Patient satisfaction surveys

External Sources

Hospitals & clinics recommending Doctolib

Partnerships (pharmacies, labs, optical stores)

Digital marketing (SEO, Google Ads, Meta Ads)

Corporate wellness programs

Student & university networks

IDEAL CUSTOMER PROFILE (ICP)

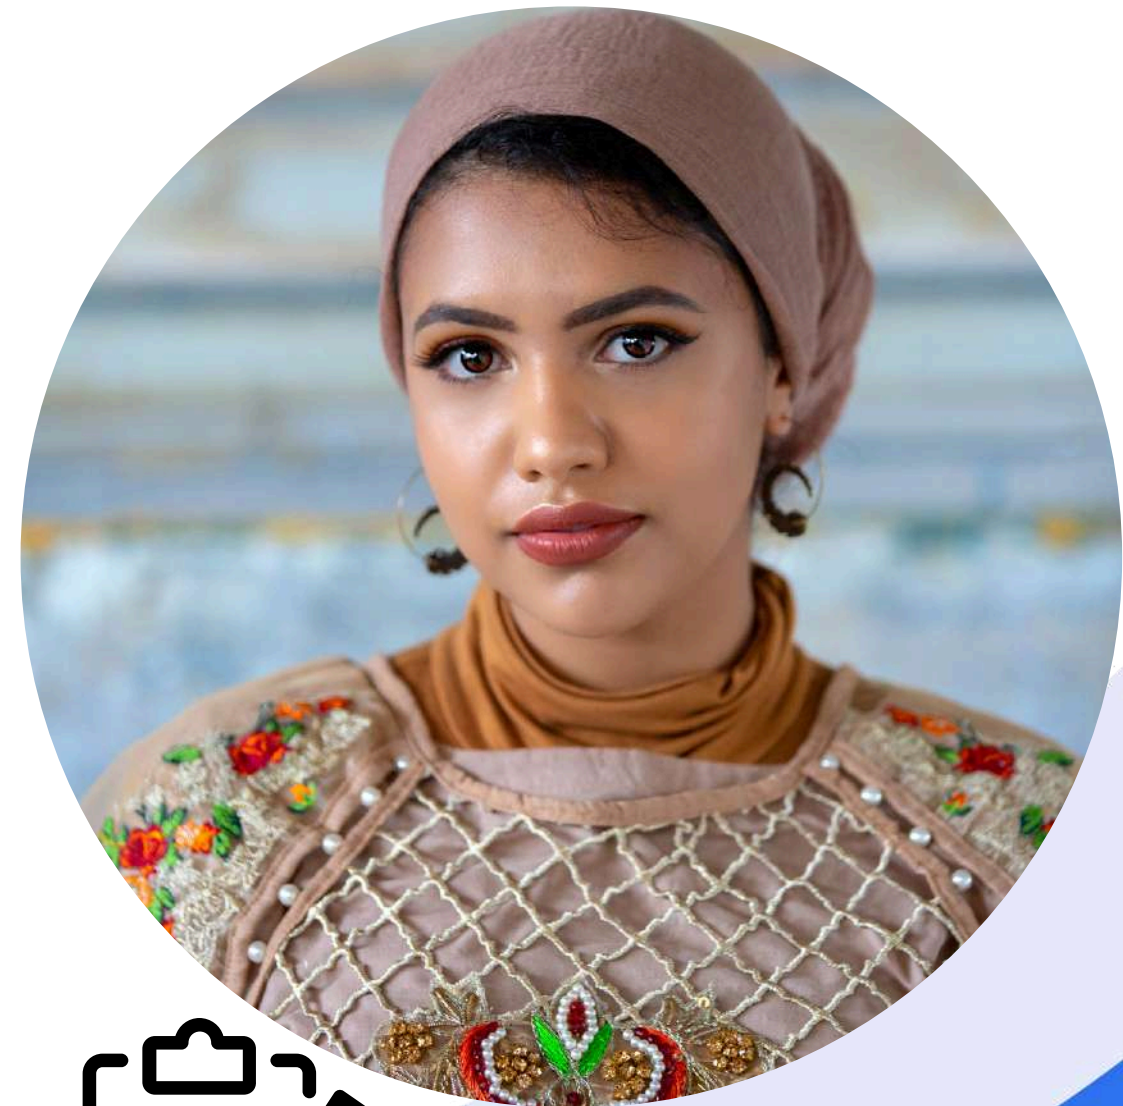

SEGMENT A: FREQUENT BOOKERS (HIGH-VALUE USERS)

Profile:

- Age 18-45, urban, digital-savvy
- 4–8 medical visits/year
- Uses teleconsultation
- Values: speed, availability, streamlined UX

Why They Matter:

- High LTV
- Repeat usage
- Strong adoption of new features

IDEAL CUSTOMER PROFILE (ICP)

SEGMENT B: NEW USERS (FIRST-TIME PATIENTS)

Profile:

- Age 18–40
- Low initial trust, needs reassurance
- Books 1 visit/year
- Prefers guidance & clear steps

Why They Matter:

- Largest growth segment
- High nurture potential
- High sensitivity to onboarding

ACQUISITION ACTIONS

(Conversion Strategy)

SEGMENT A: FREQUENT BOOKERS (CONVERT TO LOYAL POWER USERS)

ACTIONS

- Smart reminders (check-ups)
- Early access to new features
- Instant booking shortcuts
- Personalized health nudges
- Referral rewards to amplify adoption

OUTCOME EXPECTED

- ↑ Repeat bookings
- ↑ Multi-service use

ACQUISITION ACTIONS

(Conversion Strategy)

SEGMENT B: NEW USERS (CONVERT TO REPEAT USERS)

ACTIONS

- Welcome onboarding + “how it works” tour
- Doctor-matching wizard (specialty, location, availability)
- Trust boosters: verified reviews, profile badges
- Incentive coupon (pharmacy / wellness partner)
- 3-step nurture email flow (Discovery → Booking → Post-care)

OUTCOME EXPECTED

- ↑ Second booking rate
- ↑ Account activation

CX - MEASUREMENT PROTOCOL
